

# ZACHARY POETTKER

Southern Illinois University Edwardsville | US Citizen | Belleville IL  
(618) 578 - 7250 | [poettkerzach@gmail.com](mailto:poettkerzach@gmail.com)

## EDUCATION:

### Southern Illinois University Edwardsville

*Fall 2024 – Spring 2027*

- Bachelor of Science in Computer Science - Minor in Mathematics

### Southwestern Illinois College

*Fall 2021 – Fall 2023*

- Associate of Arts in Business

## RELEVANT COURSEWORK:

Data Structures & Algorithms, Operating Systems, Database & Web Systems, Statistics for Applications, Linear Algebra

## TECHNICAL SKILLS:

**Languages:** JavaScript, Python, C/C++, TypeScript, SQL, HTML/CSS

**Frameworks & Tools:** React, Node.js, Tailwind CSS, Streamlit, Git/GitHub, MySQL, Microsoft Office

**Concepts:** Object-Oriented Programming, Data Structures, Responsive Web Design, REST APIs

## PROJECTS:

### Stock Market Analysis Web Application

- Developed a stock market analytics web application for tracking NYSE and NASDAQ equities and ETFs
- Integrated advanced charting, market news, financial data, and trade thesis journaling functionality
- Utilized TradingView scripts and real-time market data APIs to deliver live financial insights and visualization tools

### AI Trading Education Simulation Platform | Hackathon Project

- Collaborated in a 3-person team to develop an interactive trading education and market simulation platform during a hackathon competition using React, JSX, Python, and Firebase
- Built dynamic trading simulation features including real-time chart interaction, PnL tracking, trade execution logic, and progression-based learning modules
- Implemented educational trading scenarios focused on risk management, market analysis, and decision-making under simulated market conditions

### Job Market Intelligence Platform

- Built a full-stack analytics platform that ingests and processes 100,000+ real job listings to surface actionable skill demand trends, salary benchmarks, and hiring patterns across the tech industry
- Engineered a data pipeline for large-scale job listing ingestion, normalization, and storage, enabling structured analysis across roles, companies, and geographic markets

## EXPERIENCE:

### E-commerce Business Owner

*October 2020 – January 2023*

- Founded and operated an ecommerce business serving customers across 30+ countries
- Generated nearly 250,000 website visits prior to successfully selling the business in 2023
- Managed website operations, analytics, logistics, and digital marketing initiatives

## CERTIFICATIONS:

### Anthropic AI Fluency& Foundations Certification

*May 2026*

- Completed certification establishing foundational knowledge of artificial intelligence concepts, core frameworks, and practical AI application principles relevant to modern software development

### Google Web Analytics Certification

*September 2023*

- Completed coursework covering website traffic analysis, user behavior tracking, audience insights, and digital performance metrics using Google Analytics
- Learned to interpret web data, evaluate engagement trends, and analyze website performance to support data-driven decision-making
